

ADP Network Solutions

DealerMail

A reliable hosted e-mail service for your dealership.

Key Benefits

- Eliminate the investment and maintenance cost of onsite mail server
- Increased reliability and security of e-mail
- Increase the visibility and value of your dealership brand
- Compose e-mail messages
- Manage your e-mail account(s)

DealerMail is a cost-effective, scalable solution that provides your dealership the robust, secure and easy-to-manage system you need.

E-mail correspondence with customers and internal employees is an absolutely crucial piece of communications for running a successful dealership. However, with the increased importance of e-mail have come challenges, such as how to manage an e-mail solution as well as the headaches of online viruses that can spread to your entire system. Having a robust and efficient e-mail service is crucial to running a productive and cost-effective business.

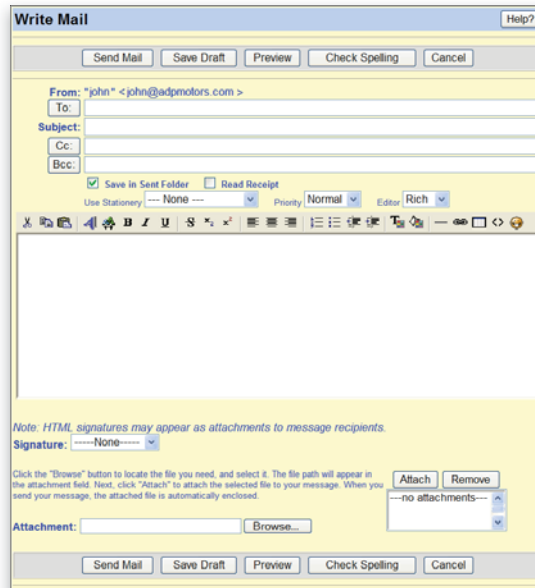

Consider the benefits of using DealerMail.

- Reduce your total costs of managing e-mail by eliminating the investment and maintenance cost of an onsite e-mail server
- Increase reliability of e-mail with a solution hosted in a Tier IV data center (the highest class of data center, according to industry standards)
- Improve your e-mail security with additional tools to destroy virus and spam on incoming messages or attachments
- Increase the visibility and value of your dealership brand with a true business e-mail solution (e.g., your address would be from salesrep@yourdealership.com rather than salesrep@free-mail.com)

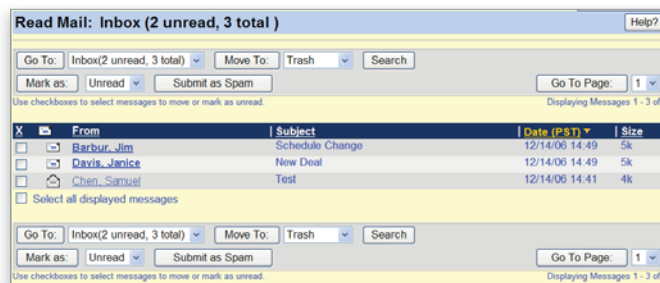

Features to Maximize your E-mail Potential

DealerMail delivers the features that ensure the successful use of e-mail throughout an individual store or an entire dealership group with locations across the country:

- Enhance your email with virus scanning of all inbound/outbound messages and attachments, spam filtering, SSL encryption, auto-forwarding to other e-mail addresses and many more unique features
- Give your employees access to e-mail anywhere they have access to the Internet
- Give your employees a choice of using POP3 software (e.g., Outlook) or their browser software to access their DealerMail e-mail
- Share calendars, address books and task lists to increase collaboration and efficiency among your employees
- Give each e-mail account 500 MB of storage (that can be upgraded up to 1 GB)
- Control of end user accounts with web-based administrative tools, plus increase productivity through better task and contact management.
